

Terms & Conditions

1. Firstly, this is an exciting project for us and has taken over a year of development. You need to keep the existence of this software confidential at this stage.
2. Secondly, this software is aimed at making the creation, management and acceptance of LOA's easier for all parties concerned. As an additional benefit it will support transparency of agent charges within the industry, starting immediately with the public sector.
3. Thirdly, if you are a consumer, we aim to provide this service free of charge. If you are a supplier of agent (TPI, broker, consultant) we aim to keep the charge as low as possible. There is no charge at all for helping us trial this software.
4. Finally, thank you for helping us (Okay Worldwide Ltd) with our development and also thank you for helping support transparency within the utilities market in the UK...and the world!
